To Whom it May Concern,

I first met Sheila and Chris Hughes in the Summer of 2002 while visiting a street festival in Clearwater Florida called the "Clearwater Street Stroll". As a promoter and organizer I was immediately impressed by what I saw and learned about this duo. Not only are they energetic and professional artists but they had acquired and were managing a stage along the Street Stroll and were presenting other local artists.

We have since networked together through a Worldwide Musicians/Songwriters organization called Just Plain Folks and I sincerely think the best is to come from our association. They continue to host an online site called "Nubzilla" and unselfishly highlight other local artists. I find them as kindred spirit and dedicated not only their own musical careers but also to enhancing the Florida Music Scene as they know the better the Scene the more opportunities for all local artists. I am presently involved in producing a show which Sheila and Chris will share the stage with another Florida Artist who plays many Florida Music Festivals.

I look forward to a long association with Sheila and Chris and I would recommend them not only as featured artists but as a welcome contributor to any project I would be involved in.

Thank you for your kind consideration,

Al Alvarez
